

# Opportunities in Genomics Research

The **Opportunities in Genomics Research (OGR)** is seeking bright, innovative and talented underrepresented students to participate in its summer or postbaccalaureate research program. Interested students can apply to the **OGR Undergraduate Scholars Program** (a 10-week summer research program) or the **OGR Extensive Study Program** (10 month post baccalaureate program). Both programs engage students in intensive genomic-focused research and help them prepare for competitive PhD programs.

## PROGRAM INCLUDES

- Career counseling and workshops
- Presentation and writing skills session
- Bioinformatics workshops
- Competitive summer stipend or postbaccalaureate salary
- Travel to and from program

## REQUIREMENTS:

**Undergraduate** scholars must be a sophomore, junior or senior in a 4-year institution.

**Extensive study** scholars must have completed a BS within two years of application.

## BOTH PROGRAMS:

GPA: Competitive – Highly Competitive

Residence: Must be a US Citizen or a Permanent Resident

Major/Degree: Science, Technology, Engineering or Mathematics (some exceptions)
